Recordal of Assignment in PTO

The assignment for U.S. Serial No. 09/529,052, patent no. _____ was recorded on November 10, 1999 at Reel 010805, Frame 0499. Said document has been reviewed and, to the best of the assignee's knowledge and belief, title is in the assignee.

Disclaimer

Max Moskowitz hereby disclaims the terminal part of any patent granted on the above-identified present application which would expire beyond the expiration date of the full statutory term of patent which may issue from U.S. Serial No. 09/529,052 patent no. _____; and

agrees that any patent so granted on the above-identified present application shall be enforceable only for and during such period that the legal title to said patent shall be the same as the legal title to patent which may issue from the patent on U.S. Serial No. 09/529,052, this agreement to run with any patent granted on the above-identified present application and to be binding upon the grantee, its successors or assigns; and

does not disclaim any terminal part of any patent granted on said above-identified present application that would extend to the full statutory term of patent which may issue from the patent on U.S. Serial No. 09/529,052 in the event that said issued patent later expires for failure to pay maintenance fee, is held unenforceable, is found invalid, is statutorily disclaimed in whole or terminally disclaimed under 37 C.F.R. 1.321(a), has all claims canceled by a reexamination certificate, or is otherwise terminated prior to the expiration of its statutory term, except for the separation of legal title stated above.

I hereby declare that all statements made herein of my own knowledge are true, and that all statements made on information and belief are believed to be true; and further, that these statements are made with the knowledge that willful false statements, and the like so made, are

punishable by fine or imprisonment, or both, under Section 1001, Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.
